## Sailing

- Yachtman diploma
- Inner/ outer waters BE
- SRC VHF diploma

## Summary

Having studied violin and marine biology, I link my passions together by exploring new fields of study, like making music with whales. I am inspired and curious about many things, always looking for new adventures while sharing what I have already studied. I have a strong will to awaken ecological responsibility in all generations.

## Strengths

- Experience on the marine field, analytical research
- Open-minded and motivated team member
- Creative and empathic
- Involved
- Finds beauty in the smallest things

## Experience

- 2020-2021: Project member for SEAD-sailing (Sustainability and Environmental Awareness Development)
- 2020: Sound pollution project and documentary shoot onboard Sailing Hirondelle, Brittany (FR)
- 2020: Master Thesis on acoustic data analysis of shared group calls of Short-Finned Pilot Whales in Tenerife, Canary Islands (La Laguna University)
- 2019-2020: Social Media Manager/Ocean Community Manager for Cyan Planet, start-up creating VR experiences to raise awareness for the oceans (GER). Currently working on 'Sea with Sounds' in collaboration with OceanSounds (NO)
- 2019: Research internship with SeaExpert on edible seaweed in Faial, Azores(PT), Research Project at the Tjarno Laboratory (SWE)
- 2012-2020: Violin and Piano private teacher for all ages, Violinist comfortable in all music genres; performer for concerts and private events/festivals

## Education

- 2020-: Didactic Master in Violin at the Royal Conservatory of Bruxelles.
- 2020: International Master's in science of Marine Biological Resources based at Ghent University (BE): specialized in conservation.
- 2018: Bachelor's in general biology at ULB, Specialized Master in Violin at the Royal Conservatory of Bruxelles (BE).

## Activities

- Scuba-diving (Rec1 - GUE), freediving and swimming
- Sailing: crew member
- Creating and performing music in diverse environments
- Puzzles, yoga, hiking, exploring and observing nature
